DETAILED ACTION

This application was filed 3-11-2004. Claims 60-76 have been canceled by paper dated 5/2/2005. Claims 1-59 and 77-93 are before the Examiner.

Election/Restrictions

1. Applicant's election with traverse of Group I (claims 17-32 and 46 (in full) and claims 1-16, 45 and 47 (in part)) in the reply filed on 5/2/2005 is acknowledged. (Claims 33-35 are drawn to compounds of formula IV and have been moved to group II.) The traversal is on the ground(s) that (1) the search and examination of the entire application can be made without serious burden and (2) that it is incumbent upon the office to conduct a search of all of the claimed subject matter. This is not found persuasive because (1) the search for the entire application would be a serious burden upon the examiner and (2) the office searches one invention. As for group IV, this group is not limited to the compounds of group I, it contains further active ingredients not part of claim 1. As for groups V-XI, as per Ochiai, if/when the compound claims become allowable, the methods of use claims will be rejoined. However, if those claims are not found allowable, then the action could be made final.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 33-44, 48-59 and new claims 77-93 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention,

there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 5/2/2005.

3. This application contains claims 33-44, 48-59 and new claims 77-93 drawn to an invention nonelected with traverse in Paper dated 5/2/2005. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Art Unit: 1625

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or, on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-7, 14-23 and 45-47 are rejected under 35 U.S.C. 102(b) as being anticipated by Jacobson (CA 125:185591) and Aceto (CA 1235:185593).

pharmaceutical.

6. Claims 1-9, 14-26, 28 and 45-47 are rejected under 35 U.S.C. 102(b) as being anticipated by Thomas (Tetrahedron Letters and J Med Chem). Thomas teaches formula 3 in Tetrahedron Letters and formula 5c in J Med Chem as pharmaceutical compounds that anticipate the instant claims.

7. Claims 1-9, 14-26 and 45-47 are rejected under 35 U.S.C. 102(e) as being anticipated by Carroll (US Patent #6531481). Carroll teaches the instantly claimed compounds in claims 1-9.

Claim Objections

8. Claims 10-13 and 27-32 are free of prior art and are objected to as being dependent from a rejected base claim.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. Margaret Seaman whose telephone number is 571-272-0694. The examiner can normally be reached on 630am-4pm, First Friday Off.
